Tarkeshwar Singh

Co-Founder @ FundaMine

Bangalore, India

Work Experience

Co-Founder, FundaMine
03/2015 - Present

Built a Medium.com style inline annotation plugin for websites which is currently being used by 50+ blogs & media websites.

Voted as the top product on Product Hunt for more than 6 hours and also got covered by TechInAsia and other leading tech news websites.

Co-Founder, Lumos
08/2014 - 03/2015

Worked as product & business guy for the IoT startup building machine learning powered smart electrical switches.

Programmed the backend stack for the product. The startup got shutdown later because of unsolvable ML problems and founder issues.

Business Development Executive, Ricoh
05/2013 - 08/2014

Closed sales of augmented reality app to 12 print media companies & generated ~250K installs via different marketing activities.

Worked as a product owner on repositioning of the product later as reverse image search powered Q&A platform around images.

Business Analyst Intern, Ricoh
05/2011 - 02/2013

Started as marketing intern with a social network app around AR in education at IITGn which got adopted by 75% students.

Worked as an analyst later on finding new business opportunities around AR & reverse image search based on prior learnings.

Education

B.Tech from IIT Gandhinagar
2009-2013

Major in Electrical Engineering (8.4/10) & Minor in Management (9.4/10)

Elected as the Cultural Secretary of the Student Gymkhana in 2012.

Awards

Director's Gold Medal for overall excellence in graduating batch of 2013.

Two patents around Visual Search & related applications with Ricoh.

Dean's Merit List for academic excellence for three semesters.
