Work Experience

Product Manager, Freecharge
01/2017 - Present

Building a platform that presents all user and order information in a single panel for use by customer support agents and other internal teams.

Product Lead, HashLearn
05/2016 - 12/2016

Oversaw product & growth at the edtech startup focused on connecting students with tutors on demand.

Made changes to signup and payments funnel that resulted in a steady growth of ~30% MoM for the last 4 months (since June).

Co-Founder, FundaMine
03/2015 - 04/2016

Built medium.com style inline commenting & highlighting product which is currently being used by 50+ blogs & media websites.

Voted as the top product on Product Hunt for more than 6 hours(finished 4th) & also got covered by Tech In Asia and leading tech media.

Co-Founder, Lumos
08/2014 - 03/2015

Worked as product & business guy for the IoT startup building machine learning powered smart electrical switches.

Proper planning of MVP ensured that we had a working MVP in less than 3 months. It helped discover the unsolvable machine learning problems.

Product Owner, Ricoh
05/2013 - 08/2014

Closed sales of augmented reality app to 12 print media companies & generated ~250K installs via different marketing activities.

Worked as a product owner on repositioning of the product later as reverse image search powered Q&A platform around images.

Education

B.Tech from IIT Gandhinagar
2009-2013

Major in Electrical Engineering (8.4/10) & Minor in Management (9.4/10)
Elected as the Cultural Secretary of Sutdent Gymkhana.

Awards

Director's Gold Medal for overall excellence in graduating batch of 2013.

Two patents around Visual Search & related applications with Ricoh.

Dean's Merit List for academic excellence for three semesters.
